WILMINGTON, N. C.

Wednesday July 9, 1873.

STILL the European World goes mad over the "King of Kings." In England, even the Queen came to London to do him honor, and now in France the excitement seems intense. America has generally been very thoroughly laughed at for its hero worship, and no end of criticisms have been written of us, ever since Dickens' severe hits in *Martin Chuzzlewit*. Our German cousins didn't seem to enthuse quite so readily, and Mr. Shah treated them with a corresponding disrespect. His course in Berlin was such as to give great offense to the highest in that land. The *Damstadt Journal* didn't admire him, and goes for him thusly:—

"Princes of the royal house were presented to the Shah, and he treated them with such an indifference that under other circumstances it could never have been tolerated. He paid more attention to those princes and persons who had raised themselves by their own achievements to historical grandeur. He deigned to honor the Crown Prince, Prince Frederick Charles, Bismarck, and Moltke with a shake of the head, while he proudly walked past the other princes as if they were far beneath him. Three members of the Israeliite Alliance had an audience by the Shah, when he was pleased to play the part of an automaton toward them. It will, no doubt, be remembered that these gentlemen had the praiseworthy intention of arousing the Shah's sympathy for their oppressed brothers in faith in Persia; but no word of promise passed the lips of the Asiatic despot. At the day of the grand festival in the gardens of Potsdam, the train for bringing the Shah there had been ordered for 3 o'clock, but in his amiable nonchalance the Shah kept the Empress and all other ladies for more than three quarters of an hour waiting; when he came he lounged about the person, never thinking of excusing himself, or even saluting the Empress.

At Potsdam when the officer on duty came to bring him the morning report and to report that the troops were in readiness to receive him, he answered that he would give the order when the review was to take place, and he finally only witnessed the parade from the window.

On the arrival of the Shah the Persian gentlemen of his suite threw some "Kopecks" (Russian coin) to the workmen, who had helped to bring the luggage to the castle. When these workmen called on the following morning for their money they were sent from one Persian dignitary to the other, at last to the cousin of the Shah, who gave them the following answer: "We Persians are the guests of the German Emperor, and we would fail against the first law of hospitality if we were to pay for anything; if any one is our guest, we always give him a gentleman of the court (a *Mil-Mandar*) and he pays for everything."

The New York *Herald* informs us that the Second Auditor of the Treasury has just completed the settlement of the account of Jacob Thompson, Secretary of the Interior under Buchanan's administration, and acting at that time as trustee of the Indian fund. It is shown there is a deficit of \$821,000. The statement is made that it has not been possible to take up these accounts until recently, owing to the fact that all previous accounts were required to be settled before reaching Mr. Thompson's case.

Of course the Democratic press, always alive to short comings, will hang their heads in shame and announce this deficit in flaming capitals also. They are always ready to expose such things.

SPEAKING of the Saget-Summer correspondence, the *Washington Republican* says:

"A correspondence is published between President Saget of Hayti, and the Hon. Charles Sumner. Mr. Saget compliments Mr. Sumner for his efforts in behalf of the colored race, to which the Massachusetts Senator responds very complacently. In this connection it may be no harm to remember that Saget, in the words of as true and faithful a Republican as ever, Mr. Sumner was—Mr. Wade—represents a monarchy founded upon the murder of his predecessor."

JAMES H. SMITH, late ticket agent on the W. & W. R. R., at Goldsboro, has been appointed freight and ticket agent at Wilson, in place of T. W. Slocumb, resigned.

EDITORIAL BUDGET.

— Dispatches from Khiva state that the town of Maugit, which made a desperate resistance, was fired and destroyed by the Russians. Kilai, which surrendered without firing a shot, was spared. The victors found in Khiva ten thousand slaves many of whom claimed the protection of Russia.

— A dispatch received from Stanley's Yellowstone expedition, dated at camp seventy miles west of Bismarck, Dakota, June 30, states that the health of the whole command was good. The Indians were offering no serious disturbance to the location of the railroad through their hunting grounds. Abundant coal of good quality was found twenty-seven miles west of the Missouri river, on the surveyed line of the road; and the country thus far traversed by the expeditionary force is an excellent one, well grassed and watered.

— The following Revenue Marine orders have been promulgated: Captain John A. Henriques is detached from the revenue steamer *Chase*, at New York, and ordered to special duty in the construction of the new revenue marine vessel at Boston and Portland. Captain John A. Webster, Jr., is ordered to command the *Chase*. Captain C. A. Abbey is detached from the revenue marine steamer *Stevens*, and ordered to command the *Dobbin*. Captain Dean is detached from the *Dobbin* and ordered to the command of the *Stevens*, undergoing repairs at Baltimore. Second Lieutenant T. K. Travers and Chief Engineer F. X. Pulsifer are ordered to special duty at Boston. Second Lieutenant Eugene Biandi and Chief Engineer Walter Scott are ordered to special duty at Portland, Me.

— A *Herald* cable dispatch from London says the *Herald* correspondent at Khartoum telegraphs, via Alexandria, a confirmation of the arrival of Sir Samuel and Lady Baker and party. He adds that Sir Samuel Baker has succeeded in organizing district governments, appointing superintendents, and making Fatiko the chief station, Gondakoro being next in importance. He also established eight other principal posts, which form a connected chain from Nubia to Nyanza, and obtained a thousand additional troops to complete the garrisoning of the communications. An important geographical discovery is said to have been made, which will astound the scientific world, as it pretends that Lakes Tanganyika and Albert Nyanza prove to be one and the same water, and a magnificent inland sea, 700 miles in length. It is further announced that vessels can be launched above the falls, named after Sir Rodrick Murchison, and sail up to Ujiji. Sir Samuel Baker and party are in excellent health, and leave at once for Sanakim, en route to Suaz.

WASHINGTON NOTES.

The numbers of claims preferred against the United States is 478; against Great Britain, 19; number decided, 35; to be decided, 141. Less than half a million dollars awarded to date.

The list for additional money-order offices created for the present fiscal year has been closed. About seventy-five applications from towns who are entitled to these offices are now on file, but as they were not received in time they cannot be granted until the next fiscal year.

Requisitions from the Post Office Department on its agents in New York for ordinary postage stamps to supply postmasters amounted on Saturday to \$1,000,000. Such orders indicate that the postal cards have not affected the demand for ordinary stamps.

The President has transmitted for record the following appointments: Henry G. Worthington, Collector of Customs, Charleston, S. C.; Joseph Beale, Chief of the Bureau of Medicine and Surgery, Navy Department, vice Palmer, resigned; W. W. Murray, United States Attorney for the western district of Tennessee.

The Fourth Auditor of the Treasury is about to distribute prize-money to the officers and crew of the United States steamer *Sycamore* for the capture of the *Alcaia*. This was one of the early captures of the war, but owing to litigation the case has only recently been decided and thus made available to the captors.

Professor Felix Heikel, of the University of Helsinki, Finland, now examining our systems of education, called on the commissioner of education Monday and complimented that officer on our modes of elementary instruction, of which he thinks Massachusetts has the best. He returns to Finland in a few days.

Postmasters throughout the country are sending in their orders for supplies, it being the commencement of the first quarter of the fiscal year. The mail received by the Third Assistant Postmaster General is, therefore, immense, requiring all his clerks to attend to the demands of postmasters throughout the country.

SIXTH YEAR.

THE ALDINE,

An illustrated monthly journal, universal in its character, representative and champion of American taste.

NOT FOR SALE IN BOOK OR NEWS STORES.

THE ALDINE, WHILE ISSUED WITH all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original creation—alone unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other number of volumes, for ten times its cost, and then there are the chromos besides!

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last fall, when THE ALDINE assumed its present noble proportions and representative character, the edition was more than doubled during the past year, proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists of America. In addition THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest, avoiding such as have become familiar through photographs, or have been previously published. The quarterly United States plates, for 1873, will reproduce four of John S. Davis' inimitable child-sketches; appropriate to four seasons. These plates, appearing in the issues for January, April, July and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously-illustrated "Christmas" number will be continued. To possess such a valuable epitome of the art world, at a cost so trifling, will command the subscriptions of thousands in every section of the country—but as the usefulness and attractiveness of THE ALDINE can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance doubly sure" by the following unparalleled offer of

PREMIUM CHROMOS FOR 1873:

Every subscriber to THE ALDINE, who pays in advance for one year 1873, will receive without additional charge a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures entitled "The Village Belle" and "Crossing the Moor" are the work of the artist, and are of 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for \$30 per pair in the art stores. As it is the determination of the publishers to keep THE ALDINE out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, guaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of this free pair of chromos of a \$5 periodical, will mark an epoch in the history of art, and considering the unprecedented cheapness of the price for THE ALDINE, the marvel falls little short of a miracle even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos see Nov. issue of THE ALDINE.)

THE LITERARY DEPARTMENT

will continue under the care of Mr. Richard Henry Stoddard, assisted by the best writers and poets of the day, who will strive to have the literature of THE ALDINE always in keeping with its artistic attractions.

TERMS:

FIVE DOLLARS per annum, in advance, with oil-chromos free.

THE ALDINE will hereafter be obtainable only by subscription. There will be no reduced or club rate; cash for subscription must be sent to the publishers direct, or handed to the local agent, without responsibility to the publishers, except in cases where the certificate is given, bearing the fact-simile signature of Jas. Sutton & Co.

AS A REPUBLICAN JOURNAL.

The Times will be devoted, as in the past,

to an intelligent and firm support of the

Republican Party, its course in reference

to the Tammany Ring, at a time when all

the other daily papers in New York ob-

structed and discouraged its efforts, attests

its sincerity in the cause of Reform. The

Times stood alone in demanding Reform

from 1869 to the close of 1871, and there

is no sincere and honest proposal for Re-

form, in any branch of the Government,

which will not be heartily supported by the

Times. But it will not conspire in the

unfounded and ambitious pretensions of

ambitious politicians or demagogues to

reach power under false pretenses. It will

not encourage defection from the Republi-

can Party, which is still the party of pro-

gress, security and national prosperity.

It will sustain, with all the force and in-

fluence at its command, the principles and

policy which have rendered that party so

justly famous in our history. It will advo-

cate those measures by which the honor,

the peace, and the prosperity of the nation

can be best secured and promoted, and will

constantly study the wants of the people

and the wishes of the wisest of our citi-

zens.

We especially call the attention to the following testimonials of the Paint:
C. P. Knight, Esq.—Dear Sir: I have used Bradley's Patent Enamel Paint on my dwelling last Spring, and am much pleased with it, and it looks as well now as when first painted, and consider it a good Paint.
Yours, truly,
A. H. STRASSBAUGH.
Creswell P. O., Hartford county, Md., Feb. 6th, 1873.

THE PLAINS, FAUQUIER CO., VA., Feb. 6th, 1873.
Mr. C. P. Knight—Sir: The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did the job myself, and it is now generally conceded that for enamel-like hardness, and body, and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation, which is an item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as testimonials, but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of its being "ready mixed" that I give you free permission, (it is desirable to you,) to make what use you think proper of this letter.
Very respectfully and truly,
S. MCGILL, M. D.

TO THE PUBLIC—It affords me much pleasure to state that in July, 1871, Front Street Theatre was painted inside and out with "Bradley's Patent Enamel Paint," for which C. P. Knight, No. 98 West Lombard Street, is agent, and, to testify to its superiority over any and all other paints for similar uses. As a private dwelling can paint possibly be subjected to the worst severe test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on. Of the numerous advantages it possesses over other paints, I will only mention its being mixed and ready for use in quantities to suit purchasers. Its quickly drying properties, which saves time in the execution of work, and its being so easily cleaned, and its very perceptible test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on.
